Forecast for Monday 05 Jul 2021

Weather: Sunny spells through much of the day with the odd shower breaking out at times. Showers will be lighter than previous days. Clouding over later in the afternoon, with widespread rain heavy rain arriving during the evening.

Chance of cloud free mountain/hill tops above 600m: 70% becoming 100% by mid-morning, then becoming 40% during the evening.

Visibility: Generally good, with clear views of distant hills. However some patches of low cloud with bases around 600m may form during the first part of the morning causing nearby landmarks to become obscured. Visibility deteriorating in any showers with ranges in the middle distance temporarily obscured. Becoming poor during the evening as widespread heavy rain arrives, with nearby hills difficult to make out and cloud bases down to around 500m causing nearby landmarks to be obscured.

02:00 on Mon 05 Jul 2021	9.4mm	12.4mm	12.8mm

Forecast for Tuesday 06 Jul 2021

Weather: A band of heavy rain and low cloud moves northwards through the Park during the small hours of Tuesday. Once this clears, by mid-morning, there will be sunny spells and heavy showers, perhaps thundery during the afternoon and evening. Breezy conditions in the afternoon.

Maximum wind: Southwesterly mean 20mph gust of 30-35mph.

Chance of cloud free mountain/hill tops above 600m: Less than 10% becoming 70% from mid-morning

Visibility: Very poor first thing with widespread cloud with bases around 500m, obscuring nearby landmarks. Improving by mid-morning as cloud lifts and breaks to give good visibility with clear views of distant ranges. Though deteriorating once again through the afternoon and into the evening in periods of heavy showers.

Temperature: **Valleys:** Plus 7 Celsius becoming plus 18 Celsius.
At 600m: Plus 9 Celsius.
Freezing level: Above the summits.
